

You take it personally.

So do we...

with technology that offers a personal touch.

With the Viterion 100 TeleHealth Monitor you can:

- ▶ **Promote patient self-management** with “advice” messages, encouragement and reminders.
- ▶ **Reduce nurse visits*** by using Viterion’s Patient Care Pathways to assess and educate patients.
- ▶ **Enhance adherence** with the schedule function for medication reminders, doctor’s visits and vital sign readings.
- ▶ **Take prompt action** by viewing risk stratified patient data with full security and take care of your patients from anywhere with access to a web browser.
- ▶ **Improve outcomes** by reducing re-hospitalization and emergency room visits.**

Viterion 100 TeleHealth Monitor can be used to measure the following vital signs:

- Blood Pressure and Pulse
- Blood Oxygen
- Weight
- Blood Glucose
- Pain
- PT/INR
- Temperature
- Fluid Level and Peak Flow
